The farmers living on or nearest the part to be dragged are to have first chance at doing the work, the pay being 50c per mile for each drag, two round trips to the drag. This would be a great help to the country roads and it should be carried out.

fish we have been hearing about was entirely artificial.

The Republican last week was a little short of news as well as in appearance, owing to a shortage of help. Elliot's leaving. Byron Bridges, operator of our easter, after school hours, has had to quit also on account of his studies in the high school becoming heavy.

Quite a heroic piece of work was done last week by Mrs. Guthrey, who lives near Fairville. She was burning some straw and refuse in the chicken house, and had put some coal oil on to make it burn better. The flames shot up and lit the shingle roof. As the burning of the chicken house must almost certainly have ignited the dwelling, she climbed to the roof and jerked the burning shingles off with her bare hands. She saved the buildings, but burned her hands and arms considerably.

WHAT CURES ECZEMA?

We have had so many inquiries lately regarding Eczema and other skin diseases, that we are glad to make our answer public. After careful investigation we have found that a simple wash of Oil of Wintergreen, as compounded in D. D. D., can be relied upon. We would not make this statement to our patrons, friends and neighbors unless we were sure of it—and although there are many so-called Eczema remedies sold, we ourselves unhesitatingly recommend D. D. D. Prescription.

Because—We know that it gives instant relief to that torturing itch.

Because—D. D. D. starts the cure at the foundation of the trouble.

Because—It cleanses, soothes and heals the skin.

Because—It enables Nature to repair the ravages of the disease.

Because—The records of ten years of complete cures of thousands of the most serious cases show that D. D. D. is today recognized as the absolutely reliable Eczema cure.
